

AUTOMOBILES

STUDENT VEHICLES

Students driving to school are to have permission forms filed in the principal's office. Students' cars are to be parked in the lot south of the building only (student parking lot). This rule includes parking during extra curricular events & practices. Students agree to drive in a safe manner when on school grounds. Students are to park their car heading north or south in organized parking rows. Loss of parking privileges will result if rules are not followed. Students are not to leave the building during the school day to go to the parking lot without receiving permission from an administrator.
